## Part II – Free Response Questions

What is your idea of public safety?

A group of highly trained members of the community hired to deescalate all forms of violent situations and to find the least damaging forms of mitigation to protect and serve that same community.

Have you taken the [#ElectedsForJustice pledge](#)? If so, what actions do you intend to take to support the 5-part plan? If not, what points are barriers to your support, and why?

Yes I have. I will support any plan or legislation that work towards the 5 part plan.

Under current state labor law, Collective Bargaining Agreements (CBAs) with law enforcement unions are often a barrier for meaningful police reform. What efforts do you support that differentiate police unions from other labor unions so that change can happen without eroding other workers' rights?

We should place exceptions in the state labor law for unions that represent public safety worker. Anything else that would help bridge this gap I would support,

Are there police reform/accountability measures that are not addressed here that you think would be productive to pursue?

I would support of any other measures that would be productive in reforming the public safety agencies.

**I affirm that all the information provided in response to this questionnaire is true, complete, and correct to the best of my ability, and that no relevant matter has been omitted.**
