Part II – Free Response Questions

What is your idea of public safety?

The ability to be safe in public and not be subject to harassment or violence while performing public activities.

Have you taken the [#ElectedsForJustice pledge](#)? If so, what actions do you intend to take to support the 5-part plan? If not, what points are barriers to your support, and why?

I don't believe I have yet.

Under current state labor law, Collective Bargaining Agreements (CBAs) with law enforcement unions are often a barrier for meaningful police reform. What efforts do you support that differentiate police unions from other labor unions so that change can happen without eroding other workers' rights?

Police reform, and the overseeing of reform shouldn't be handled by the police, which would then move it into it's own union and would no longer cause hold ups in collective bargaining with police unions, because they will no longer have oversight over those situations.

Are there police reform/accountability measures that are not addressed here that you think would be productive to pursue?

I believe that there needs to be continued and thorough sensitivity training regarding marginalized groups.
